Profile

I am an Eagle Scout. I have created two applications for the Apple AppStore, a number of modifications for unrestricted iOS devices, and a couple websites. Currently, I'm a senior attending Johnson and Wales in Providence, RI. I have completed a degree in Computer Programming and I am pursuing a degree in Software Engineering.

Experience

FOUNDER & CEO, VILLA RENTALS; UNITED STATES – SPRING 2017

At Villa Rentals, we enable landlords to better care for their renters, by equipping them with the best tools, because we believe improving our communities should come first. We provide an online experience for landlords to organize maintenance requests, collect rent, message their renters, and much more.

IOS SOFTWARE ENGINEER, JOHNSON & JOHNSON; PROVIDENCE, RI - SUMMER OF 2017, WINTER OF 2017

I have worked on various projects in an agile environment. These team projects have included the use of many frameworks including AWS, Nuance, Medidata, and more.

GENIUS BAR, APPLE; PROVIDENCE, RI - WINTER OF 2015, WINTER OF 2017

I diagnosed and fixed iOS devices at the Apple Retail store. I started in sales and was quickly promoted to the Genius bar. Throughout my time working here, I had to help various customers with a number of problems and improved my customer service skills exponentially.

Education

GPA at JWU: 3.21

Johnson and Wales University – Software Engineering (Bachelor)
